PROFESSIONAL SUMMARY

Software Engineering student experienced in full-stack web applications and REST APIs using Java, Spring Boot, Python, React, SQL, and Git. Skilled in object-oriented design, unit testing, debugging, API integration, and building responsive user interfaces across the software development lifecycle. Comfortable contributing to Agile/Scrum teams and familiar with Docker, CI/CD, Maven, and JPA/Hibernate for database persistence.

PROFESSIONAL EXPERIENCE

Programming Teaching Assistant | **PUC Minas**
04/2026 - 07/2026 and 09/2026 - Present | Belo Horizonte, MG

- Guide students in Java and Object-Oriented Programming (OOP), covering unit testing, systematic debugging techniques, and code organization.
- Diagnose and resolve errors in student implementations and projects, improving functionality and code reliability.
- Support academic projects by advising on project structure, testing strategies, and best practices for maintainable code.

EDUCATION

Bachelor's Degree in Software Engineering - PUC Minas
2025 - 2028 (Expected Graduation) | Belo Horizonte, MG

PROJECTS

NutriSoft | Java, Spring Boot, Thymeleaf, MySQL - Awarded Best Interdisciplinary Project - 2026.1

- Collaborated with a team to develop a full-stack nutritional management system, contributing to dynamic forms, user interfaces, scheduling features, and a virtual assistant.
- Worked across frontend and backend development using Thymeleaf, Spring Boot, MySQL, and Git, applying teamwork, communication, and problem-solving throughout the software development lifecycle.

Voll Med API | Java, Spring Boot, MySQL, JPA

- Designed and implemented a REST API using Spring Boot and Spring Data JPA/Hibernate with MySQL for data persistence.
- point tests with JUnit and performed Developed endpoint tests with JUnit and performed API integration testing; used Git and GitHub for version control.

Data Pipeline | Python, ETL, JSON, CSV

- Developed a reusable Python ETL pipeline to extract, transform, standardize, and integrate data from JSON and CSV sources.
- Automated data processing tasks with scripting to reduce manual effort and prepare datasets for downstream use.

Interactive Portfolio | React, Vite, JavaScript, HTML, CSS

- Built a gamified, interactive portfolio using React with component-based navigation and animations to showcase projects.
- Implemented responsive UI patterns with HTML5 and CSS3, creating interactive environments and user interactions.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python, C
Back-end: Spring Boot, Spring Data JPA, JPA/Hibernate, REST APIs, API Integration, JUnit
Front-end: React, Vue.js, Vite, HTML5, CSS3, Thymeleaf, Bootstrap
Databases: SQL, MySQL
Tools & DevOps: Version Control (Git/GitHub), Docker, Maven, CI/CD, Software Deployment
Software Engineering: OOP, SOLID, Clean Code, Unit Testing, Agile, Scrum, SDLC
Knowledge: Requirements Engineering, Data Structures, Algorithms, BPMN, Software Architecture, Database Modeling

CERTIFICATIONS & LANGUAGES

Certifications: Spring Boot 3 - Alura (2025) | Data Pipeline with Python - Alura (2025)
Languages: English - Intermediate | Spanish – Intermediate | Portuguese – Native
